

## **Instructions on downloading music from IMSLP for Zoom Rehearsals**

- From the rehearsal schedule, click on the link to the IMSLP page for the piece of music you wish to download.
- Once on this page, you will need to download your instrument's part for the piece: Scroll down to 'sheet music'. Click on the 'parts' tab and the parts are listed starting with the flutes. Click on the part for your instrument.
- For some pieces there is more than one edition available. Please ensure you select your part from the correct edition as listed in the rehearsal schedule.
- Note that for transposing instruments, parts are sometimes available in alternative keys, which are often listed separately from the rest of the parts, towards the bottom of the parts page.
- Click on 'I accept this disclaimer, continue to download file', below the disclaimer box
- There is a 15 second countdown after you click on the instrument part you wish to download. After this delay, click on 'click here to continue your download', which is near the top of the page, just below the download box, in small writing.
- Save or print off the music – note that when we are only playing part of a piece, you may wish to print only those pages.

If you have any problems accessing or printing your part, please either ask your section leader for help, or ask Sian.
